

Research Template

Each team member on your project should come up with an idea and complete research on it.

My Possible Challenge Topic is:

Carry out an information search on this topic

Write down the websites, books, magazines, brochures you accessed:

And the people (e.g. email or phone) you contacted:

Exploration activities

Exploration activities help you clarify your aim, and check that your project is realistic for you to do.

They can include discussion of your project with others, carrying out initial surveys and experiments and making mock-ups. Your ideas usually change as you find out more about your topic. These changes should be noted in your blog with reasons.

Exploration activities undertaken:

List the pro's and con's for this idea

Pro's

Con's

Is the list of pro's and con's enough for you to decide whether or not your project is worth doing? **Yes/No**

Would it help to make a mock-up? **Yes/No**

Have you thought about what equipment you would need and how much time it would take to do your project? **Yes/No**

Have you discussed your idea with your teacher and or mentor? **Yes/No**

Is this project feasible?

Explain why or why not.

Will we take this particular idea further?

Yes/No.

Explain why
